Figures and illustrations in this User Manual are provided for reference only and may differ from actual product appearance. Product design and specifications may be changed without notice.

## Introduction

This TV B2B (Business to Business) model is designed for hotels or the other hospitality businesses, supports a variety of special functions, and lets you limit some user (guest) controls.

## Operational Modes

This TV has one mode:Stand-alone mode.

- Stand-alone mode : In this mode, this TV works alone without an external SBB or the STB.

The TV has a Hotel (Hospitality) Menu that lets you easily set its various hospitality functions. Please see pages 17 to 21.

The Menu also lets you activate or de-activate some TV and hospitality functions so you can create your optimal hospitality configuration.

## Still image warning

Avoid displaying still images (such as jpeg picture files) or still image elements (such as TV channel logos, panorama or 4:3 format images, stock or news bars or crawls) on the screen. Displaying still pictures continually can cause uneven screen wear, which will affect image quality. To reduce the chance that this effect will occur, please follow the recommendations below:

- Avoid displaying the same TV channel for long periods.
- Always try to display a full screen image.
- Reduce brightness and contrast to help to prevent the occurrence of after-images.
- Frequently use all TV features designed to reduce image retention and screen burn-in. Refer to the proper user manual section for details.

## Ensuring Proper Ventilation

When you install the TV, maintain a distances of at least 4 inches between the TV and other object (walls, cabinet sides, etc.) to ensure proper ventilation.

Failing to maintain proper ventilation may result in a fire or problems with the product caused by an increase in its internal temperature.

- ☞ When using a stand or wall-mount, use parts provided by Samsung Electronics only.
- ☞ Using parts provided by another manufacturer may cause difficulties with the product or result in injury caused by the product falling.

## Additional Information

- ☞ The appearance of the TV and its accessories may differ from the illustrations in this manual, depending on the TV.
- ☞ Be careful when you touch the TV. Some parts can be hot.

ENGLISH

## Accessories

- ⦿ Please make sure the following items are included with your LED TV. If any items are missing, contact your dealer.
- ⦿ The items' color and shape may vary, depending on the model.
- ⦿ The parts for the stand are listed under Stand Components on the following page.
- ⦿ The provided accessories may vary depending on the model.

### List of Parts

Remote Control (AA59-00817A) & Batteries (AAA x 2)

Power Cord

Safety Guide / Quick Setup Guide (Not available in all locations)

Holder-Wire stand 1(EA)

## Installing the LED TV Stand

### Components

When installing the stand, use the provided components and parts.

**A** 1 EA

Stand  
(differs, depending on the model)

**B** 1 EA

Guide Stand

**C** x 4 (M4x12)  
x 4 (M4x14)

Screws

**1**

**C** x4  
(M4 x 14)

**2**

- Place a soft cloth over the table to protect the TV, and then place the TV on the cloth screen-side down.
- Insert the Stand Guide into the slot on the bottom of the TV.

**3**

### NOTE

- Make sure to distinguish between the front and back of the Stand and Stand Guide when connecting them.
- Make sure that at least two people lift and move the LED TV.
- The number of screws may differ depending on the model.

## Using the TV's Controller

The TV's Controller, a small joy stick like button on the rear right side of the TV, lets you control the TV without the remote control.

- ☞ The product color and shape may vary depending on the model.
- ☞ To exit the menu, press the Controller for more than 1 second.
- ☞ When selecting a function by moving the controller backwards/forwards/left/right, be sure not to press up on the controller. If you press up first, it will not operate correctly.

### Standby mode

Your TV enters Standby mode when you turn it off and continues to consume a small amount of electric power. To be safe and to decrease power consumption, do not leave your TV in standby mode for long periods of time (when you are away on vacation, for example). It is best to unplug the power cord.

## The Connection Panel

### HC460 Model

- Whenever you connect an external device to your TV, make sure that the TV and the device are turned off.
- When connecting an external device, match the color of the connection terminal to the cable.

#### ① USB (5V 0.5A) / CLONING

- Connector for software upgrades and Media Play, etc.
- Service connection.

#### ② PC/ DVI AUDIO IN: Connects to the audio input jacks on an Amplifier/Home Theater.

#### ③ PC IN: Connect to the video output jack on your computer.

#### ④ ANT IN, (AIR/CABLE)

- To view television channels correctly, the TV must receive a signal from one of the following sources:
- An outdoor antenna / A cable television system

#### ⑤ HDMI IN: Connects to the HDMI jack of a device with an HDMI output.

- No sound connection is needed for an HDMI-HDMI connection. HDMI connections carry both audio and video.
- Use the HDMI IN (DVI) jack for a DVI connection to an external device. Use a DVI to HDMI cable or DVI-HDMI adapter (DVI to HDMI) for the video connection and the PC/DVI AUDIO IN jacks for audio.

#### ⑥ AV IN

- Connect the RCA audio cables (optional) to [R - AUDIO - L] at the back of the TV set and the other ends to the corresponding audio out jacks on the DVD Player.

#### ⑦ EX-LINK: Connect this jack to the jack on the optional RJP (Remote Jack Pack). The RJP allows you to connect external devices (Camcoders, PCs, DVD players, etc) easily.

## Using the TV's Controller

## Installing the batteries (Battery size: AAA)

Rear of the Remote

☞ After you have installed the batteries, use a screwdriver to screw in the screw that holds the battery cover closed.

## **Installing Batteries into the Remote (battery size: AAA)**

Match the polarity of the batteries to the symbol in the batter compartment.

☞ **NOTE**

- Use the remote control within 23~33 feet of the TV.
- Bright light may affect the performance of the remote control. Avoid using near fluorescent lights or neon signs.
- The color and shape of the remote may vary depending on the model.

## Connecting the RJP (Remote Jack Pack)

Connect the input jacks on the TV to the RJP. The RJP lets guests connect audio and video sources to the TV.

## HC460 Model

1. Connect the **AV IN VIDEO/L-AUDIO-R** ports of the TV to the **RCA** port of the RJP.

2. Connect one of the **HDMI IN** ports of the TV to the **HDMI** port of the RJP.

3. Connect the **EX-LINK** port of the TV to the **RS/232** port of the RJP.

☞ This Samsung TV is compatible with the **Tele Adapt TA-7610 RJP** only.

• **RJP (Remote Jack Pack):** The RJP is a hardware module that has different Audio Video inputs (A/V, Audio, PC and HDMI) and corresponding outputs. The corresponding outputs are connected from the RJP to the TV. The RJP communicates with the TV via RS232. The RJP communicates with the TV by sending messages regarding Active/Inactive sources.

– A group of hotel menu items let you assign numbered priorities to the jacks of the RJP. (See page 14). 1 is the highest priority and 3 is the lowest. When a guest connects external sources to the RJP jacks, the TV will automatically switch between sources based on the priority you have assigned them in the Menu. For example, lets say AV is set to 1 and HDMI to 2. If a guest has attached a device to the HDMI jack, and then plugs a device into the AV jack, the TV automatically switches to the device plugged into the AV jack (the jack with the higher priority). Note that a guest can also switch between devices manually by pushing a button on the RJP.

☞ When you set up the RJP, connect the RJP to **HDMI** or **AV**.

• To reset the RJP to its factory default state, press the **AV** and **HDMI** buttons simultaneously for 10 seconds. When all button LEDs blink 5 times, the RJP reset is complete.

• The RJP will automatically turn off any LEDs after 5 minutes to avoid unnecessary light pollution in the hotel room. The LEDs that were turned off will turn on again if the guest touches any of the buttons and the 5 minute timer will restart. If the guest then touches another source button, the TV will change to the selected source and the corresponding LED will be lit.

• After an RJP Reset or a TV Power OFF/ON, it takes approximately 10 seconds to establish communications between the TV and the RJP.

• The following table shows the approximate time in seconds it takes to switch from the TV to an input source, based on assigned or default priorities.

☞ Scenario 1 : When no inputs are connected.

Source	To Connect
AV	2 Sec
PC	0.7 Sec
HDMI	3.9 Sec

☞ Scenario 2: When two or more inputs are connected to the RJP and one of the input sources is disconnected and then reconnected.

Source	Disconnect	To Connect	Total
AV	4.5 Sec	2 Sec	6.5 Sec
PC	0.7 Sec	0.7 Sec	1.4 Sec
HDMI	3.9 Sec	3.9 Sec	7.8 Sec

☞ An example: If the RJP has all its live sources (AV, PC, and HDMI) connected, AV has been assigned the highest priority, the RJP is in HDMI mode, and a guest removes and reconnects the AV source, the minimum time required to switch to the AV source is 6.5 seconds.

• To play audio devices (Ipods, MP3 devices, etc.) through the RJP, you must turn **Music Mode AV** in the menu on. (See page 14)

• Music mode in the **TA-7610 RJP** is supported by the **AV** jack only. **HDMI** Music mode is available for the **Guestlink RJP** only.

## Setting the Hotel Option Data

To let you control how the TV functions when in Hotel mode, the TV has two Hotel mode menus, the Stand-alone mode menu and the Interactive mode menu. The menu items that differ between the menus are listed below.

Menu items in the Stand-alone mode only:

- SI Vendor : Smoovie
- REACH Server and its submenus.

Menu items in the Interactive mode only:

- SI Vendor: Samsung and other vendors.

All other items appear in both menus

To access the menus, press **MUTE** → **1** → **1** → **9** → **ENTER**  on your Samsung remote.

After a menu appears, follow these general directions to navigate and change values:

- Use the Up and Down arrow buttons on the Samsung remote to move from menu item to menu item.
- Press the **ENTER** or Left or Right arrow buttons to select a menu item. The screen displays that menu item only.
- Press the Left or Right arrow button to change a value. The Right arrow button increases numerical values. The Left arrow button decreases numerical values.
- When the screen is displaying one menu item, you can press the Up or Down arrow button to display the next or previous menu item.
- Press the **RETURN** or **MENU** button to exit the current menu item and go to a higher menu level or the Main menu.
- To exit a Hotel mode menu, turn off the TV, and then turn it on again. Any changes you made are saved except changes to SI Vendor. For changes to SI Vendor, you must turn the TV off, wait until the Standby light glows steadily, then unplug the TV, wait for the Standby light to go off, and then plug the TV in again.

Hospitality Mode	Standalone	System

Above: The Hotel mode menu

<Depending on model and region, some menu items may not exist.>

To change menus, follow these steps:

1. Highlight the Hospitality Mode menu item in the top left corner of the menu.
2. Press the left or right arrow button on the Samsung remote. Only the Hospitality Mode menu item is displayed.
3. Press the left or right arrow button to change the Hospitality Mode item from Standalone to Interactive or from Interactive to Standalone.
4. Press the Return or Menu button on the remote. The entire menu re-appears with your selection displayed in the Hospitality Mode field.

☞ After you have set the values in one TV, you can clone those values to multiple TVs. See USB Cloning on page 19.

## ■ Menu Items

To Enter this menu: Press the MUTE → 1 → 1 → 9 → ENTER buttons in order.

To exit from this menu : Power Off (or Power Off and unplug if you have changed SI Vendor), and then turn on again. Any changes you made are saved.

Menu	Item	initial Value	Description
<b>Hospitality Mode</b>	Hospitality Mode	Standalone	Select Hospitality mode. • Stand-alone mode : TV works alone.
<b>SI Vendor</b>	SI Vendor	OFF	Stand-alone mode : OFF / Smoovie
<b>Power On</b>	Power On Channel	Last Saved	Set the default values that will be applied when the TV is turned on. • User Defined : Lets you set Power On Channel and Channel Type manually. See Power On Channel and Channel Type below. • Last Saved : If you select this item, when the TV is turned on, it displays the channel it was displaying when it was turned off.
	Power On Channel Num	...	When the TV is turned on, it switches automatically to this channel.
	Power On Channel Type	...	• Select channel band : AIR (analog air band), DTV (digital air band), CATV (analog cable band), CDTV (digital cable band)
	Power On Volume	Last Saved	• User Defined : Lets you set the Power On Volume manually. See Power On Volume below. • Last Saved : When the TV is turned on, it returns to the volume that had been set when the power had been turned off.
	Power On Volume Num	...	The TV turns on with this Volume Level in Stand Alone Hospitality mode.
	Min Volume	0	The minimum Volume Level the user can set in Stand Alone Hospitality mode.
	Max Volume	100	The maximum Volume Level the user can set in Stand Alone Hospitality mode.
	Power On Source	TV	Select the input source the TV displays when turns on.
	Power On Option	Last Option	Determines the TV's state when power returns after a power failure or after you have unplugged the TV and then plugged it in again. • LAST OPTION : Returns to its last Power state. If it was in Stand-by, it returns to Stand-by. If it was on, it turns on. • Power On : When the power returns, the TV turns on. • Standby : When the power returns, the TV enters the Standby mode.
	Channel Setup	...	Gives you direct, immediate access to some of the Channel menu functions on the user Channel menu such as Auto Program, Antenna selection, etc.
	Channel Editor	...	The Channel Editor lets you edit the channels stored in the TV's memory. Using Channel Editor you can: • Change the channel numbers and names, and sort the channels in your desired channel number order. • Apply the video mute to channels you select. The video mute blanks out the video from a channel and outputs only the sound while displaying a speaker icon on the screen. The Channel Editor also lets you view information about each channel easily, without your having to display each channel directly.
<b>Channel</b>	Dynamic SI	OFF	• On : Check the DTV Programme channel number. (the DTV channel editor is inaccessible) • Off: Do not check the DTV Programme channel number. (the DTV channel editor is accessible, but additional channel Programme number update is not supported)
	Picture Menu Lock	OFF	Enable or disable the Picture Menu.
	Menu Display	ON	• On : The Main Menu is displayed. • Off : The Main Menu is not displayed.
	Panel Button Lock	Unlock	Turning the front panel (local key) operations on/off. • Unlock : Unlocks all panel keys. • Lock : Locks all panel keys. • OnlyPower : Locks all panel keys except the Power panel key. • Menu/Source : Locks the Menu and Source panel keys.
	Home Menu Display	ON	OFF: The Home Menu is not displayed. ON: The Home Menu is displayed.
	Home Menu Editor		Edit Home Menu .
<b>Menu OSD</b>	Home Menu Auto Start	ON	ON: The Home Menu is Auto Start. OFF: The Home Menu is not Auto Start.

Menu	Item	Initial Value	Description
Clock	Local Time	Manual	Select the way to update clock data. Use clock data from a DTV channel to set the clock automatically or set the clock manually when the TV is in stand-alone mode
	Time Channel Type	...	Use clock data from which DTV channel to set the clock
	Time Channel Num	...	DTV channel Number
Music Mode	Music Mode AV	OFF	To get music output from an mp3/audio player through an AV Input Source. When on, you can hear sound from the player through the TV even there is no video signal. The TV's backlight, however, remains on. And add a video signal, it works normally.
	Music Mode PC	OFF	To get music output from an mp3/audio player through a PC Input Source. When on, you can hear sound from the player through the TV even there is no video signal. The TV's backlight, however, remains on. And add a video signal, it works normally.
	Music Mode Backlight	OFF	Backlight On/Off option in Music mode to save energy
Remote Jack Pack	Priority AV	1	If the jack priority is set, the corresponding source is automatically set when a jack is inserted according to the jack priority
	Priority PC	2	If the jack priority is set, the corresponding source is automatically set when a jack is inserted according to the jack priority.
	Priority HDMI	3	If the jack priority is set, the corresponding source is automatically set when a jack is inserted according to the jack priority.
	AV Option	AV	Select RJP AV Source (Source selection depends on Model).
	HDMI Option	HDMI /DVI	Select which HDMI source of the TV is connected to the RJP jack. (HDMI1/HDMI2/HDMI3)
External Source	HDMI Music Mode	OFF	Allows music output from an mp3/audio player connected to an HDMI Input Source. When on, you can hear sound from the player through an HDMI input of the RJP whether there is a video signal or not. (This option is only compatible with the Guest link RJP.)
	USB Pop-up Screen	Default	When a USB device is connected to the TV : <ul style="list-style-type: none"> <li>Default : A popup window appears.</li> <li>Automatic : Opens the USB contents menu automatically.</li> <li>Disable : Neither the popup window nor the menu appears.</li> </ul>
	External Source Banner	ON	If set to On, the TV displays the External Source Banner (information) when you change the TV source to another external input, press the Info key, or turn the TV on. <ul style="list-style-type: none"> <li>On : The External Source information is displayed on the TV screen.</li> <li>Off : The External Source information is not displayed on the TV screen.</li> </ul>
	Auto source	OFF	<ul style="list-style-type: none"> <li>On : When an external input source is connected to the TV, the TV identifies the input source, and then automatically switches to that input source.</li> <li>Off : Auto Source function is Off.</li> </ul>
Eco Solution	Anynet+Return Source	Power On Src	Select the return TV source after stopping an Anynet+(HDMI-CEC) connection. (This function is especially useful for the Guestlink RJP.)
	Energy saving	OFF	Adjusts the brightness of the TV to reduce power consumption. <ul style="list-style-type: none"> <li>Off: Turns off the energy saving function.</li> <li>Low: Sets the TV to low energy saving mode.</li> <li>Medium: Sets the TV to medium energy saving mode.</li> <li>High: Sets the TV to high energy saving mode.</li> </ul>
Logo/ Message	Welcome Message	OFF	Displays a the Welcome Message for 5 seconds when the TV turns On.
	Edit Welcome Message		Edits the Welcome Message.
	Hospitality Logo	OFF	Turns the Hospitality logo feature On or Off. If On, when the TV is turned on, the Logo is displayed, before the signal from the initial source, for the amount of time set in "Logo Display Time".
	Hospitality Logo DL	...	Downloads the Hospitality logo. Hospitality logo file requirements: <ul style="list-style-type: none"> <li>BMP or AVI files only.</li> <li>Max file size : BMP - 960 X 540. AVI - 30MB.</li> <li>The file can only be named samsung.bmp or samsung.avi.</li> </ul>
	Logo Display Time	...	Hospitality Logo Display Time (3/5/7 seconds).
Cloning	Clone TV to USB	-	Clone the current TV options to a USB memory device.
	Clone USB to TV	-	Clone the saved TV options on a USB memory device to the TV.
	Setting Auto Initialize	OFF	When Setting Auto Initialize is set to On, and the power is turned off and on or the Master Power is turned off and on, the data is restored to the cloned values. If there is no cloned value, even when the Setting Auto Initialize is set to On, it will be ignored and the operation will be the same as that when Setting Auto Initialize is set to Off

Menu	Item	Initial Value	Description
REACH Solution	REACH 3.0	OFF	REACH 3.0 On and Off
	REACH 2.0	OFF	REACH 2.0 On and Off
	REACH Channel	...	87:Assign a DTV channel number to carry the update REACH data. This channel number must be the same as the number set on the Reach server.
	Group ID	...	All:Select the group ID of the REACH server. (Refer to the REACH server manual for more details)
	IPG Room Type	...	You can receive up to 3 EPG information headed to the Americas according to Room Type from SI, and it displays the appropriate channel list and EPG information according to the value set on TV. For IPG Room Type, there are Default / Public / Roomtype3 within the hotel Factory Install menu, and its default value is Default.
	Ticker	OFF	<ul style="list-style-type: none"> <li>On : The TICKER content is displayed.</li> <li>Off : The TICKER content is not displayed.</li> </ul>
	REACH Update Time	...	<p>Lets you set when data such as updated SW, cloning files, and S-LYNC REACH contents is downloaded from the REACH server to the TV :</p> <ul style="list-style-type: none"> <li>1hour : Every hour</li> <li>2hour : Every 2 hours</li> <li>12:00 am : every 12:00 a.m.</li> <li>12:00 pm : every 12:00 p.m.</li> <li>2:00 pm : every 2:00 p.m.</li> </ul>
	REACH Update Immediate	...	<ul style="list-style-type: none"> <li>On : Whenever the TV enters standby mode (the power cord is plugged in and the power is off), the REACH data is updated on the TV.</li> <li>Off : The REACH data is only updated on the TV at the REACH server update time.</li> </ul>
	Room Number	...	Setting Room Number.
REACH Solution	REACH 2.0 TV Sound	...	OFF:Close REACH 2.0 TV Sound ON:Open REACH 2.0 TV Sound
	REACH 2.0 Server Version	...	0000:Displays the current REACH data version.
	USB	...	USB Disable or Enable.
Security	HDMI	...	HDMI Disable or Enable.
	DRM	DRM Mode	OFF
			Configures CAS support. OFF : Turns off CAS support. LYNK DRM : Select to turn on S-LYNK DRM CAS support only.
	Self Diagnosis for TV	...	<p>Enter Self Diagnosis Menu.</p> <ul style="list-style-type: none"> <li>Picture Test: Use to check for picture problems. If the problem appears in the test picture, select Yes and follow the directions on the screen.</li> <li>Sound Test: Use the built-in melody sound to check for sound problems. If the problem occurs during the test, select Yes and follow the directions on the screen.</li> </ul>
	SW Update	...	SW USB Update function
	Service Pattern	OFF	Same function with SVC Service Pattern
System	ATV Cable AGC Gain	Default	Lets you control the AGC gain of the analog cable channels. Don't change the default value unless problems occur.
	DTV OpenCable AGC Gain	Default	Lets you control the AGC gain of the digital cable channels. Don't change the default value unless problems occur.
	Contact Samsung	...	Samsung Contact information
	TV reset	...	Factory reset

REACH (Remote Enhanced Active Control for Hospitality) is a professional, interactive remote controller that lets you deliver TV firmware updates, cloning data, channel mapping changes, S-LYNK REACH contents, and TICKER contents through RF DTV to several hundred hospitality TVs simultaneously. The REACH functions are available only in stand-alone mode. The REACH Server is sold separately. Refer to the REACH server manual enclosed with the REACH server product for more operating information.

## ■ Welcome Message

The Welcome Message feature displays a custom message on the TV every time it is turned on.

- Welcome message settings are in the Hotel Option Menu.
- Set Welcome Message to ON to display the message when the TV is powered on.

- You can make the Welcome Message up to 25 characters long and edit it in the Hotel Service menu.
- Welcome Message supports the following characters:
  - Capital Letters from A to Z.
- You can edit the Welcome Message by using the remote's navigation, color, and Enter buttons in the “Edit Welcome Message” OSD (See the illustration below.)

Below are the general directions for navigating and changing letters on the Edit Welcome Message screen:

- Press the **A** button on the remote to move to the left in the message.
- Press the **B** button to move to the right.
- After you have selected a position in the message, use the arrow buttons on your remote to select a letter in the alphabet below the message.
- Press **Enter** to place a letter into the position you selected.
- Press the **C** button to erase a letter in a position or enter a blank.
- Press **Return** or the **D** button to exit.

## ■ Hotel Logo

The Hospitality Logo function displays the Hotel's picture image when the TV is powered on.

- Hospitality Logo settings are the Hotel mode menus.
- The Logo Download and Logo Display Menu items are enabled when you turn the Hospitality Logo option on.
- If there is a logo image stored in memory and the Hospitality Logo option is on, the Hospitality logo is displayed when the TV is turned on.
- The Hospitality logo is not displayed when the Hospitality found Logo option is off, even if the logo image has been loaded into the TV.

<Depending on model and region, some menu items may not exist.>

### • Hospitality Logo

- This option lets you choose whether the Hospitality Logo image is displayed or not.
- Initial value is OFF.
- Can be set to OFF or ON.
- When set to ON, the Logo Download and Logo Time Display menu items become accessible.

### • Logo Download

- This option lets you download the logo image to the TV's memory from a USB device.
- A wait message appears while the image is being copied to the TV.
- A "completed" message appears when the copy operation finishes successfully.
- The word "failed" appears if the copy operation was unsuccessful.
- **No USB** appears if no USB device is connected.
- **No File** appears if there is no file to copy on the USB device or the file is in the wrong format (must be a BMP or AVI file). If No File appears and there is a logo file on the USB device, check the file format.

### • Logo File Format

- The TV supports only BMP and AVI format.
- The file name must be `samsung.bmp` or `samsung.avi`.
- The maximum resolution of the BMP format is **1280 x 720**.
- The maximum file size for AVI format is 30MB.
- The TV does not change the size or scale of the image.

## USB Cloning

The USB Cloning function lets you download user-configured settings (**Picture**, **Sound**, **Input**, **Channel**, **Setup**, and **Hotel Setup**) from one TV to a USB device, and then upload these settings from the USB device to other TV sets. This lets you create a standard array of settings and distribute that standard array to all the TVs in your facility.

- **Cloning from TV to USB:** Copies stored menu settings from a TV to a USB device.

1. Insert a USB drive into the **USB** port on the rear of the TV
2. Enter the hotel option menu by pressing these buttons in order. **MUTE** → 1 → 1 → 9 → **ENTER** ↵
3. Press the ▲ or ▼ button to select **Clone TV to USB**, and then press the **ENTER** ↵ button.
4. The message **Clone TV to USB** is displayed. Press the **ENTER** ↵ button.
5. The TV displays one of the following messages:
  - **In Progress:** Copying data to USB.
  - **Completed:** Copy operation was successful.
  - **Failed:** Copy operation was not successful.
  - **No USB:** USB is not connected.

The clone folder will be labeled T-**NT14LAKUCB**.

☞ The cloned values include the values on the Guest side menu (brightness, picture size, contrast, etc.) and the Hotel side menu.

- **Cloning from USB to TV:** Copies menu settings from a USB device to a TV.

☞ **Shortcut:** Turn the TV off, insert the USB device, turn the TV on, and then press the **ENTER** ↵ button for 5 seconds.

To clone data to the TV using the Hotel menu, follow these steps:

1. Turn the TV off.
2. Insert the USB drive into the USB port on the rear of the TV.
3. Turn the TV on.
4. Enter the Interactive menu by pressing these buttons in order. **MUTE** → 1 → 1 → 9 → **ENTER** ↵
5. Press the ▲ or ▼ button to select “Clone USB to TV”, and then press the **ENTER** ↵ button.
6. The message **Clone: USB to TV** is displayed. Press the **ENTER** ↵ button.
7. The TV displays one of the following messages:
  - **In Progress:** Copying data to TV.
  - **Completed:** Copy operation was successful.
  - **Failed:** Copy operation was not successful.
  - **No USB:** USB is not connected
  - **No File:** There is no file to copy on the USB device. If you get a No File message, check the folder on your **USB device**. The folder name should be T-**NT14LAKUCB**.

## ■ Multi Code Remocon

A Multi Code Remocon is a special remote which is designed to control multiple TVs.

This function is useful where there is more than one TV in a location.

You can control up to 10 TVs with a different ID code of each remote with no conflicts between the TVs. ID numbers are displayed on each TV's OSD.

The Initial ID code for each TV is "0".

- You can set and reset the ID code in Analog TV mode or PC mode. (Not available in DTV mode.)
- You can set the ID code to any digit from 0 to 9.
- To set a TV's ID code, follow these steps:
  1. Aim the remote at the TV, and then press the **MUTE** button and the **RETURN** button simultaneously for more than 7 seconds. When you stop pressing the buttons, the TV displays the current ID in the middle of the screen and the words, "Remote control code is set to x. If you want to change the Remote control code, enter the digit you want to change."
  2. Press the number on the remote you want to assign to the TV. The TV displays the following words: "Remote control code is changed to x."

☞ The TV will display the OSD until you press the **Exit** button.

See the example below.

Remote control code is set to 0. If you want to change  
Remote control code, enter the digit you want to  
change.

Example: After you see the message above, if you press 1, the TV and Remote will be set to ID code 1. The TV then displays the following message: "Remote control code is changed to 1" The TV can then only be controlled by a remote which has the same ID code (1).

The TV can then only be controlled by a remote which has the same ID code (1).

- To reset the ID code, press the **MUTE** button and the **EXIT** button simultaneously for more than 7 seconds. When you stop pressing the buttons, the ID codes of the TV and Remote are reset to "0". "Remote control code is set to 0." appears on the TV.

## Setting Auto Initialize

When you clone settings from one TV to another, you clone both the guest side menu and hotel side menu settings: Picture, Sound, Input, Channel, Setup, and Hotel Setup. This lets you set nearly all of the menu values on your hospitality TVs to the same, standard settings. If you allow guests access to the guest side menus, for example the Picture menu, they can change the settings in those menus so they are no longer standard. If you set the Setting Auto Initialize function to on the TV automatically restores (initializes) any guest-side menu values to the cloned, standard values when the TV is turned off and then turned on again. Note that Setting Auto Initialize works on cloned guest side menu values only. Settings which have not been cloned are ignored.

The table below lists the settings that are restored to their cloned values when you set the Setting Auto Initialize function to on.

Menu	Menu Item	Menu	Menu Item
Picture Menu	Picture Mode	Sound Menu	Sound Mode
	Backlight		Sound Effect
	Contrast		DTS TruSurround
	Brightness		DTS TruDialog
	Sharpness		Equalizer
	Color		Speaker Settings

## ■ Hotel Plug & Play

The Hotel Plug & Play function, which automatically performs the Hotel mode selection, Country Setup, Clock Setup, and Picture mode Setup, runs once when power is first turned ON. Setup also runs automatically after you have executed a Service Reset.

- **Hotel Plug & Play OSD**

- Initially highlighted: Standalone Setup
- If you select the Standalone Only button, Standalone mode is set by default and the “Standalone mode has been set” OSD appears for 3 seconds.
- TV enters into RF mode automatically after displaying the “Standalone mode has been set” OSD for 3 seconds.
- If you select Standalone Setup mode, the “Select your Language” OSD appears.

- **LocalSet**

- Initially highlighted: US
- If you press the Enter key after selecting Change, you can change the country.
- If the country is changed, the TV automatically turns off and on.
- If you select the incorrect country, execute TV Reset again after entering the Service section of the Hotel Menu.

- **Select Menu Language OSD**

- If you select Standalone from the “Standalone Setup TV Mode” OSD, the “Select your Language” OSD appears.
- Initially highlighted: English
- If you press the Enter key, the “Picture Mode” OSD appears

- **Picture Mode OSD**

- Initially highlighted: Standard.
- The TV displays the Picture Mode OSD where you can choose Dynamic or Standard Picture mode.

- **Auto Program OSD**

- If you press the Enter key, the TV automatically searches for channels.

- **Set Clock Mode, DST(Daylight saving time), and Time Zone OSD**

- Initially highlighted: Clock Mode : Auto, DST : Off, Time Zone : Eastern
- If the TV will be tuned to digital broadcast channels, and these channels transmit date and time information, set the Clock Mode to Auto. The TV will set the date and time automatically.
- If the TV will not be tuned to digital broadcast channels, set the Clock Mode to Manual, and then set the date and time on the TV manually.
- Set DST On or Off to apply or not apply daylight saving time to the TV.
- Select your time zone on the map appears.

## ■ USB Software Upgrade Method

Samsung may offer upgrades to the TV's SW in the future. Please contact the Samsung Hospitality Hot line at 1-866-894-0524 to receive information about downloading upgrades and using a USB drive to update the SW by connecting the USB drive containing the upgrade to the USB port located on the TV.

When the software is upgraded, video and audio settings you have made will return to their default (factory) settings. We recommend you clone the hotel settings so that you can easily reset them after the upgrade.

To upgrade the TV's software, follow these steps:

1. Insert a USB drive containing the SW upgrade into the **USB** port on the side of the TV.
2. Press the **MENU** button to display the menu.  
Press the **▲** or **▼** button to select Support, and then press the **ENTER**  button.
3. Press the **▲** or **▼** button to select SW Upgrade, and then press the **ENTER**  button. The message "**Scanning for USB. This may take more than 1min.**" is displayed.
4. The message "**Upgrade version XXXX to version XXXX? The system will be reset after upgrade.**" is displayed.  
Press the **◀** or **▶** to select the OK, and then press the **ENTER**  button.

Please be careful to not disconnect the power or remove the USB drive while upgrades are being applied. The TV will turn off and turn on automatically after completing the SW upgrade. Please check the SW version after the upgrades are complete.

## ■ Channel Bank Editor (Smoovie TV Only)

The Channel Bank Editor in conjunction with the SMOOVIE remote lets you control the channels guests have access to. The Channel Bank Editor provides three Banks of channels and lets you select which channels will be available from each bank. SMOOVIE remotes have instalable Bank Cards which correspond to the channel banks in the Channel Bank Editor. The remotes only allow access to channels in the channel bank that correspond to the installed card. Consequently, the channels a guest can access depend on the Bank Card installed in their SMOOVIE remote.

### Setting the Channel Bank Editor under Stand-alone Mode

1. Press **MUTE + 1 + 1 + 9 + ENTER** on the remote to enter the Hotel Standalone menu.
2. Go to SI vendor, and then select : “**Smoovie**”
3. Find the new menu option, “**Channel Bank Editor**”.
4. Enter the “**Channel Bank Editor**”.

<Depending on model and region, some menu items may not exist.>

5. Edit the Channel Bank. An example is below.
  - a. Bank1 (Free channel): Select the channels that will be accessible when a remote doesn't have a card.
  - b. Bank2 (Family Card - Green): Select the channels that will be accessible when a remote has a GREEN CARD.
  - c. Bank3 (Adult Card - Red): Select the channels that will be accessible when a remote has a RED CARD.

### Information About SMOOVIE Remote Controls

Channel Bank Editor			
	Bank1 (4)	Bank2 (6)	Bank3 (36)
All	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

5 CNN	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
6 CW	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
7 HBO	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
8 TNT	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Move Select/Deselect Return

- If you select SMOOVIE as the SI vendor, you should also use SMOOVIE remotes in your facility.
- Guests with remotes that do not have a card can only view channels from Bank 1.
- Guests using the Numeric keys on the remote to change channels can only view channels from Bank 1.
- Guests with remotes that have Green or Red cards must use the channel up/down keys to change channels.
- Guests can only see channels from the Bank1 channel list In the Channel Guide or the Channel List.

## Smoovie Set Up Sequence

Smoovie TV Setup (Air/ Cable )		
Step	Only Air or Cable used	Only Air or Cable used
	If the TV starts with Hotel Plug&Play	If Hotel Plug&Play already done
1	Do a complete P&P (including Air or Cable auto tune)	Enter the Hotel menu
2	After P&P, the TV displays the Hotel menu	Select the channel type - ATV or ADTV for Air - CATV or CDTV for cable
3	Select the channel type - ATV or ADTV for Air - CATV or CDTV for cable	Select Smoovie TV in the Hotel menu
4	Select Smoovie TV in the Hotel menu	Select Channel Setup
5	Select Channel Setup (Can be skipped)	Select "Air" or "Cable" to auto tune
6	Select "Air" or "Cable" to auto tune. (Can be skipped.)	Set up channels in the CH Bank Editor
7	Set up channels in the CH Bank Editor	After power off & on, guests can use the TV
8	After power off & on, guests can use the TV

## **Channel Editor**

The Channel Editor lets you edit the channels stored in the TV's memory. Using Channel Editor you can:

- Change the channel numbers and names, and sort the channels in your desired channel number order.
- Apply the video mute to channels you select. The video mute blanks out the video from a channel and outputs only the sound while displaying a speaker icon on the screen.
- The Channel Editor also lets you view information about each channel easily, without your having to display each channel directly.

<Depending on model and region, some menu items may not exist.>

### **General Steps for Using the Channel Editor in Stand-alone Mode**

Step	Broad Outline
1	Run 'Channel Auto Store' in the Hotel Option Menu.
2	Enter 'Channel Editor' in the Hotel Option Menu.
3	On a piece of paper, compile a list of channels you want to have, arranged in the order you want.
4	Rearrange channels and edit channel names with the TOOLS Button based on the list you compiled.
5	Press the EXIT or RETURN Button to exit.

<For a detailed explanation of how Channel Editor works, see pages 34 through 36.>

**The picture below shows a sample Channel Editor screen.**

- **A** Indicates an analog channel.
- Channels without an **A** are digital channels.
  - ☞ If Dynamic SI in the Hospitality Option Menu is On, Channel Editor will display no digital channels. You must set Dynamic SI to Off before you can edit digital channels in Channel Editor.
- The guide at the bottom of the Channel Editor menu displays the remote buttons you need to press to apply Channel Editor functions.
  - ❶ Using the remote's up or down arrow key, highlight the channel that you want to edit.
    - To edit more than one channel, move the highlight to a channel, and then press the **ENTER**  key. A check will appear in the check box next to the channel. Repeat for each channel you want to edit.
  - ❷ To delete the channel or channels you selected from the channel list, press the red button on the remote.
    - To delete two or more channels simultaneously, select multiple channels in Step 1, and then press the red button on the remote.
  - ❸ Press the green button on the remote to select all channels.
  - ❹ To apply the video mute, press the yellow button on the remote.
    - To apply the video mute to two or more channels simultaneously, select multiple channels in Step 1, and then press the yellow button on the remote.
  - ❺ To view information about a channel, including video mute set up, press the **INFO** button on the remote.
  - ❻ Press the **TOOLS** button on the remote to rename a channel or change the channel number. See page 36.

### Channel Editor Functions and Remote Button

- A** Red (**Delete**): Deletes a channel from the channel list.
- B** Green (**Select All**): Selects all channels at once.
- C** Yellow (**Deselect All**): Deselects all channels at once.
- D** Blue (**Video Mute On/Off**): You can set the **Video Mute On/Off**.
- ♦ (**Page**): Moves to next or previous page.
- i* (**Information**): Display details of the selected channel.
- (**Tools**): Displays the option menu.
- ⌚ (**Return**): Returns to the previous step or exits.

When you press the TOOLS button, the following menu is available.

- **Edit Channel Number**

Use Edit Channel Number to change the channel number of a channel you select.

To change a channel number, follow these steps:

1. Select a channel on the Channel Edit screen.
2. Press the TOOLS button on your remote.
3. Select Edit Channel Number in the Tools menu.
4. Use the up or down arrow keys to change the channel number.
5. Select OK when done, and then press the ENTER  button.

☞ When you change the channel number, the channel information is not updated automatically.

- **Rename Channel**

Use Rename Channel to change the name of a channel you select.

To change the name of a channel, follow these steps:

1. Select a channel on the Channel Edit screen.
2. Press the TOOLS button on your remote.
3. Select Rename Channel in the Tools menu.
4. Use the on-screen keyboard that appears to enter the new name for the channel. Use the arrow buttons on your remote to select a letter or number, and then press Enter. Repeat for each letter or number you want to select.
5. When finished, select Done on the bottom of the screen, and then press the ENTER  button.

- **Information**

Use Information to view information about a channel you select.

To view information about a channel, follow these steps:

1. Select a channel on the Channel Edit screen.
2. Press the TOOLS button on your remote.
3. Select Information in the Tools menu.
4. Select OK, and then press the ENTER  button to close the Information screen.

The external sources of this TV are displayed in the last page of the Channel Editor menu as shown in the example below. In the example, there are two external sources connected to the TV, **HDMI2 (DVI)** and **AV**.

- You can assign a new analog channel to an external source by selecting the source on the last page, pressing the **TOOLS** button, selecting **Edit Channel Number**, and then using the up or down arrow button on the remote to select the channel number of the analog channel.
- If you tune to a channel after assigning the channel to an external source, you can enter the external source without opening the TV source menu.

HDMI3AllAfter assigning channel number 997 to the AV source.

## Installing the Wall Mount

### Wall or Ceiling Mounting

If you mount this product on a wall, it should be mounted only as recommended by the manufacturer. Unless it is correctly mounted, the product may slide or fall, causing serious injury to a child or adult, and serious damage to the product.

### Installing the Wall Mount Kit

The wall mount kit (sold separately) lets you mount the TV on the wall. For detailed information about installing the wall mount, see the instructions provided with the wall mount. Contact a technician for assistance when installing the wall mount bracket. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you elect to install the wall mount on your own.

To order the wall mount, contact Samsung Customer Care at 1-800-SAMSUNG (1-800-726-7864).

### Wall Mount Kit Specifications (VESA)

☞ The wall mount kit is not supplied, but sold separately.

Install your wall mount on a solid wall perpendicular to the floor. When attaching to building materials other than plaster board, please contact your nearest dealer. If you install the wall mount on a ceiling or slanted wall, TV may fall and cause severe personal injury.

#### ☞ NOTE

- Standard dimensions for wall mount kits are shown in the table below.
- Samsung wall mount kits contain a detailed installation manual. All parts necessary for assembly are provided.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not use screws that are longer than the standard dimension or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
- Do not fasten the screws too firmly. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Do not mount the TV at more than a 15 degree tilt.
- Always have two people mount the TV onto a wall.

Product Family	TV size in inches	VESA screw hole specs (A * B) in millimeters	Standard Screw (Length* Pitch in mm)	Quantity
LED-TV	40	200 X 200	M8	4
	48	200 x 200		

Do not install your Wall Mount Kit while your TV is turned on. It may result in personal injury due to electric shock.

## Securing the TV to the Wall

### Caution

Pulling, pushing, or climbing onto the TV may cause the TV to fall. In particular, ensure that your children do not hang over or destabilize the TV; doing so may cause the TV to tip over, resulting in serious injuries or death. Follow all safety precautions provided on the included Safety Flyer. For added stability, install the anti-fall device for safety purposes, as follows.

### To Avoid the TV from Falling

1. Put the screws into the clamps and firmly fasten them onto the wall. Confirm that the screws have been firmly installed onto the wall.
  - ☞ You may need additional material such as an anchor depending on the type of wall.
  - ☞ Since the necessary clamps, screws, and string are not supplied, please purchase these additionally.
2. Remove the screws from the back center of the TV, put the screws into the clamps, and then fasten the screws onto the TV again.
  - ☞ Screws may not be supplied with the product. In this case, please purchase the screws.
3. Connect the clamps fixed onto the TV and the clamps fixed onto the wall with a strong string and then tie the string tightly.

#### NOTE

- Install the TV near to the wall so that it does not fall backwards.
- It is safe to connect the string so that the clamps fixed on the wall are equal to or lower than the clamps fixed on the TV.
- Untie the string before moving the TV.

4. Verify all connections are properly secured. Periodically check connections for any sign of fatigue for failure. If you have any doubt about the security of your connections, contact a professional installer.

## Anti-theft Kensington Lock

The Kensington Lock is a device you can use to physically fix a TV to a location when you use it in a public place. The appearance and locking method may differ from the illustration at right, depending on the manufacturer. Refer to the manual provided with the Kensington Lock for additional information on proper use.

The Kensington Lock is not supplied by Samsung.

- ☞ Please find a “” icon on the rear of the TV. A Kensington slot is beside the “” icon.

To lock the product, follow these steps:

1. Wrap the Kensington lock cable around a large, stationary object such as desk or chair.
2. Slide the end of the cable with the lock attached through the looped end of the Kensington lock cable.
3. Insert the locking device into the Kensington slot on the product **①**.
4. Lock the lock.

 These are general instructions. For exact instructions, see the User manual supplied with the locking device.

 The locking device has to be purchased separately.

 The location of the Kensington slot may be different depending on the TV model.

## Important Warranty Information Regarding Television Format Viewing

See the warranty card for more information on warranty terms.

Wide screen format LED Displays (with aspect ratios of 16:9, the ratio of the screen width to height) are primarily designed to display wide screen format full-motion video. The images displayed on them should primarily be in the wide screen, 16:9 ratio format, or expanded to fill the screen if your model offers this feature, and the images are constantly moving. Displaying stationary graphics and images on screen, such as the dark sidebars on nonexpanded standard format television video and programming, should be limited to no more than 5% of the total television viewing per week.

Additionally, viewing other stationary images and text such as stock market crawls, video game displays, station logos, web sites or computer graphics

and patterns, should be limited as described above for all televisions. Displaying stationary images that exceed the above guidelines can cause uneven aging of LED displays that leave subtle, but permanent burned-in ghost images in the LED picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On LED models that offer picture sizing features, use these controls to view different formats as a full screen picture.

Be careful in the selection and duration of television formats used for viewing. Uneven LED aging as a result of format selection and use, as well as burnedin images, are not covered by your Samsung limited warranty.

### • SAMSUNG ELECTRONICS NORTH AMERICAN LIMITED WARRANTY STATEMENT

Subject to the requirements, conditions, exclusions and limitations of the original Limited Warranty supplied with Samsung Electronics (SAMSUNG) products, and the requirements, conditions, exclusions and limitations contained herein, SAMSUNG will additionally provide Warranty Repair Service in the United States on SAMSUNG products purchased in Canada, and in Canada on SAMSUNG products purchased in the United States, for the warranty period originally specified, and to the Original Purchaser only.

The above described warranty repairs must be performed by a SAMSUNG Authorized Service Center. Along with this Statement, the Original Limited Warranty Statement and a dated Bill of Sale as Proof of Purchase must be presented to the Service Center. Transportation to and from the Service Center is the responsibility of the purchaser. Conditions covered are limited only to manufacturing defects in material or workmanship, and only those encountered in normal use of the product.

Excluded, but not limited to, are any originally specified provisions for, in-home or on-site services, minimum or maximum repair times, exchanges or replacements, accessories, options, upgrades, or consumables.

For the location of a SAMSUNG Authorized Service Center, please call toll-free:

- In the United States : 1-866-894-0524
- In Canada : 1-800-213-8513

### Disconnecting Device Instructions

Worded: "To disconnect the apparatus from the mains, the plug must be pulled out from the mains socket, therefore the mains plug shall be readily operable" or equivalent.

### Outdoor Use Marking - UL

Worded: "WARNING - To Prevent damage which may result in fire or electric shock hazard, do not expose this appliance to rain or moisture" or equivalent.

### Wet Location Marking - c-UL

Worded: "Apparatus shall not be exposed to dripping or splashing" and "Do not place a vessel containing water on this apparatus as this can result in a risk of fire or electric shock" or equivalent.

*This page is intentionally  
left blank.*
